What is Integrated Team Care?

Integrated Team Care (ITC) is a program that supports you to better manage your Chronic condition.

Am I Eligible for ITC?

- If you identify as Aboriginal and/or Torres Strait Islander.
- If you have one or more diagnosed Chronic conditions.
- Your doctor has done a GPMP to assist you.

What is a GP Management Plan?

A GPMP is completed for people with Chronic health conditions who require team-based care from a GP and other health or care providers. Moorditj Koorts ITC team work with you and your GP to access different services identified in your GPMP.

What are the benefits of ITC?

- Personalised support and services that make a real difference to the way you manage your chronic condition.
- Access to specialist and allied health services.
- Increase cultural safety of mainstream health care services.
- Support mainstream services to help Aboriginal people to self identify.
- Financial Assistance with Specialist consultations, access to medical aids e.g. blood sugar monitors, prescription glasses, CPAP machine etc.

What do you do now?

- Get your regular doctor to complete a GPMP & ITC referral form.
- Your doctor will then send these documents to Moorditj Koort.
- Moorditj Koort will contact you once we receive this information.
